

Troubleshooting & Optimization Solutions

CETCO
ENERGY SERVICES

A Minerals Technologies Company

CLEAR SOLUTIONS
for complex fluids

At CETCO, our goal is to provide world-class service to the upstream oil & gas industry by helping our customers mitigate environmental risk through best-in-class technology and process engineering. Through our Troubleshooting & Optimization Solutions, we provide superior water treatment services and capital equipment as well as the advantages of specialized engineering services to assist in the optimization of water separation processes.

ABOUT US

CETCO ENERGY SERVICES (CETCO), the trusted partner and complex fluid experts equipped and ready to solve your fluid challenges; delivering clear and proven results by increasing operator efficiency, reducing downtime, and maximizing output while safely protecting the environment.

**16 WORLDWIDE

OUR EXPERTISE

- ✓ Advanced Technology
- ✓ Safety Performance
- ✓ Globally Innovative
- ✓ Environmentally Conscious

Troubleshooting & Optimization Solutions

For operators today, environmental regulations are becoming ever more stringent while profitability is under increased pressure due to tight market conditions. Through our ORCA™ troubleshooting and optimization programs, CETCO delivers a cost effective solution to complex problems for water treatment applications. Our ORCA™ Services help operators optimize their production systems by identifying the root cause of process challenges and providing clear and concise insights into their production problems. We review the issues, perform studies, and then make recommendations on the best most cost effective solution available.

Whether needing to debottleneck Brownfield operations and enable additional hydrocarbon production or mitigate project risk and provide a high degree of assurance ensuring adequacy of Greenfield designs, we are committed to enabling greater oil and gas production and add value to our customer's projects.

Features & Benefits

- State-of-the-art technology
- Cost effective solutions
- Optimized production systems
- Brownfield produced water optimization
- Greenfield water treatment system design review
- Brownfield produced water rates increase and expansion projects
