AQUADRAIN® 18H

LEED™ PRODUCT INFORMATION

AQUADRAIN 18H drainage composite consists solely of a polystyrene core and polypropylene geotextile filter fabric and contains no Volatile Organic Compounds (VOCs). AQUADRAIN has been successfully used to provide positive drainage on thousands of projects worldwide.

MANUFACTURING LOCATION

CETCO certifies that AQUADRAIN 18H drainage composite is manufactured in Atlanta, GA. If your project falls within a 500-mile radius of this location, the product is considered to be a locally produced material and can help contribute to earning Materials & Resources - Credit 5.1.

RECYCLED CONTENT

CETCO certifies that the core of AQUADRAIN 18H drainage composite is manufactured with 90% post-consumer material recycled content. The geotextile does not contain pre-consumer or post-consumer material. Please note that this recycled content figures are not absolute. Day to day variations in manufacturing operations will result in minimal variations from the above listed figure. As over 50% of the product is recycled content, AQUADRAIN 18H can help to contribute to earning Materials & Resources - Credit 4.1 and Credit 4.2.

VOC CONTENT

CETCO certifies that AQUADRAIN 18H contains 0 g/L Volatile Organic Compounds (VOCs).
