ULTRASEAL® AB

LEED™ PRODUCT INFORMATION

ULTRASEAL AB is a unique waterproofing membrane comprised of a polyethylene liner and an advanced Active Polymer Core (APC) integrally bonded to an aggressive pressure sensitive adhesive that locks the membrane to concrete. ULTRASEAL AB provides reliable, cost-effective waterproofing protection and contains no Volatile Organic Compounds (VOCs).

MANUFACTURING LOCATION

CETCO certifies that ULTRASEAL AB is manufactured in Cartersville, GA. If your project falls within a 500-mile radius of this location, the product is considered to be a locally produced material and can help contribute to earning Materials & Resources - Credit 5.1.

RECYCLED CONTENT

CETCO certifies that ULTRASEAL AB is manufactured with a minimal percentage (< 5%) pre-consumer material recycled content from ordinary recovery of raw materials in the manufacturing processes. Please note that this recycled content figures are not absolute. Day to day variations in manufacturing operations will result in minimal variations from the above listed figure. The product's recycled content from manufacturing raw material recycling process, ULTRASEAL AB can help to contribute to earning Materials & Resources - Credit 4.1.

VOC CONTENT

CETCO certifies that ULTRASEAL AB contains 0 g/L Volatile Organic Compounds (VOCs).
