WATERSTOP-RX

LEED™ PRODUCT INFORMATION

WATERSTOP-RX, concrete joint waterstop material consists of natural sodium bentonite and butyl rubber compound. WATERSTOP-RX provides reliable, cost-effective water infiltration protection at concrete joints and contains no Volatile Organic Compounds (VOCs). WATERSTOP-RX does not contain any polyvinylchloride (PVC).

MANUFACTURING LOCATION

CETCO certifies that WATERSTOP-RX is manufactured in Cartersville, GA 30121. If your project falls within a 500-mile radius of this location, the product is considered to be a locally produced material and can help contribute to earning Materials & Resources - Credit 5.1 and Credit 5.2.

RECYCLED CONTENT

CETCO certifies that WATERSTOP-RX is manufactured with 3% pre-consumer material recycled content by weight; with no post-consumer material recycled content. The product's recycled content can help to contribute to earning Materials & Resources - Credit 4.1 and Credit 4.2.

VOC CONTENT

CETCO certifies that WATERSTOP-RX contains 0 g/L Volatile Organic Compounds (VOCs).
