AQUADRRAIN® 15XP
LEED™ PRODUCT INFORMATION

Aquadrain 15XP drainage composite consists solely of a polystyrene core and polypropylene geotextile filter fabric and contains no Volatile Organic Compounds (VOCs). Aquadrain has been successfully used to provide positive drainage on thousands of projects worldwide.

MANUFACTURING LOCATION
CETCO certifies that Aquadrain 15XP drainage composite is manufactured in Atlanta, GA. If your project falls within a 500-mile radius of this location, the product is considered to be a locally produced material and can help contribute to earning Materials & Resources - Credit 5.1.

RECYCLED CONTENT
CETCO certifies that Aquadrain 15XP drainage composite is manufactured with a minimum 90% pre-consumer material recycled content from ordinary recovery of raw materials in the manufacturing process of the polystyrene core. Please note that this recycled content figures are not absolute. Day to day variations in manufacturing operations will result in minimal variations from the above listed figure. As over 50% of the product is recycled content from manufacturing raw materials process, Aquadrain 15XP can help to contribute to earning Materials & Resources - Credit 4.1 and Credit 4.2.

VOC CONTENT
CETCO certifies that Aquadrain 15XP contains 0 g/L Volatile Organic Compounds (VOCs).

CETCO is committed to the use of recycled content in the manufacturing of Volclay waterproofing products and supports the United States Green Building Council (USGBC) by participating as an USGBC Industry Member.

Sincerely,

Stacy Byrd
National Products Manager
