RESEARCH REPORT: RR 25669
(CSI 07110)
Expires:  June 1, 2016
Issued Date:  June 1, 2014
Code:  2014 LABC

DETAILS

1. The above product is approved for below-grade waterproofing as required by Chapter 18 of the Los Angeles Building Code. The product may be used in conjunction with Los Angeles City approved caulking materials at penetrations of the waterproofing membrane.

2. The application of the material shall be in accordance with the manufacturer's instructions. A copy of the instruction shall be available at each job site.

3. The product shall be in full contact with the wall and soil at all times

4. The maximum allowable hydrostatic pressure of the Strataseal HR is 64.5 psi.

DISCUSSION

The Clerical Modification was made to update the contact person and phone number.

The report is in compliance with the 2014 Los Angeles City Building Code.

The approval is based on tests.

Strataseal HR was tested with 129 psi Hydrostatic Resistance.
This general approval of an equivalent alternate to the Code is only valid where an engineer and/or inspector of this Department has determined that all conditions of this Approval have been met in the project in which it is to be used. Addressee to whom this Research Report is issued is responsible for providing copies of it, complete with any attachments indicated, to architects, engineers and builders using items approved herein in design or construction which must be approved by Department of Building and Safety Engineers and Inspectors.
