

Wastewater Sample Request Form REV 04/2024

Description: The CETCO Wastewater Laboratory will perform a series of tests on the water sample submitted and determine an optimum treatment based upon the information provided herein. Upon completion, a report will be issued indicating results before and after treatment.

Sampling & Shipping Instructions:

- Please send a **1-gallon representative sample**. The preferred container is a strong, HDPE plastic bottle or pail that is suitable for liquids with adequate packing material to reduce possibilities of leaks and damage.
- Samples that require **BOD** testing (performed at an off-site lab) should be sent in a cooler with ice. **Cyanide** should be destroyed/treated prior to shipping the sample.
- Please provide all relevant information including **discharge limits**, prior analytical reports, SDS on known cleaning agents, solvents, etc. and submit with this form and sample. Missing, incomplete, or inaccurate information on this form will delay the evaluation and may lead to an erroneous recommendation.
- Ship samples to the address below and email tracking information to the CETCO Sales Representative, Regional Manager and/or dave.kotloski@mineralstech.com.

CETCO Wastewater Laboratory, 2870 Forbs Avenue, Hoffman Estates, IL 60192

Listed below are the standard wastewater testing options offered by the CETCO Laboratory. Please check only those procedures that are required.

Standard Evaluation: Treatment Recommendations, Suspended Solids, pH, Oil & Grease	<input type="checkbox"/>
Metals Analysis: Cd, Cr, Cu, Pb, Ni, Zn	<input type="checkbox"/>
▪ TCLP on Sludge:	<input type="checkbox"/>
▪ Total Organic Carbon:	<input type="checkbox"/>
▪ Chemical Oxygen Demand:	<input type="checkbox"/>
▪ Total Phosphorus	<input type="checkbox"/>
▪ Additional Tests:	<input type="checkbox"/>

Today's date: _____

Facility generating wastewater: _____

Address: _____

Facility contact(s): _____

Phone: _____ Email: _____

CETCO Wastewater Sales Rep/Distributor: _____

What type of process generated this wastewater? _____

Is this facility a current customer of CETCO Wastewater Treatment products? Yes No If yes, what products? _____

Has this sample been altered since sampling (e.g. pH adjusted)? Yes No

Volume of wastewater generated per day. _____ Gallons/Liters

Will treated water be: recycled discharged to sewer/other: _____

If multiple samples are being submitted, can the streams be combined? Yes No If yes, at what ratio: _____

Does this facility have a discharge permit? Yes No If yes, please include discharge limits.

Please describe current disposal method (Hauling Batch Continuous) and items of concern:
