To Our Customers:

Re: ViCALity® SG Organic Status

Specialty Minerals Inc. ViCALity® SG Precipitated Calcium Carbonate (PCC) manufactured at our Ste Genevieve, MO facility is approved to be used as an ingredient in or on processed products labeled as “organic” or “made with organic” (specified ingredients or food group(s)) in accordance with the USDA 7 CFR National Listing section 205.605 (a) (6).

A 2018 petition accepted by the United States Department of Agriculture (USDA) Technical Report recognizes the PCC (CAS 471-34-1) as “Calcium Carbonate” in its final ruling as a Non-Synthetic allowed under the CFR 205.605(a). For further reference, please visit:

<https://www.ams.usda.gov/rules-regulations/organic/petitioned-substances/calcium-carbonate>

If you have any additional questions, please feel free to contact me at (413) 662-9968.

Sincerely,

Parvin Golbayani
