To Our Customers:

Re: GCC - California Proposition 65

Specialty Minerals Inc.'s Ground Calcium Carbonate (GCC) products are manufactured from naturally occurring limestone quarried at our site in Adams, Massachusetts. These products contain small but detectable impurity amounts of Lead (< 3 ppm), and natural Crystalline Silica, which are listed substances in the California Safety Drinking Water and Toxic Enforcement Act.

If you have any additional questions, please feel free to contact me at (413) 662-9968.

Sincerely,

*Parvin Golbayani*
