To Whom It May Concern

**PRECIPITATED CALCIUM CARBONATE – STORAGE AND SHELF LIFE STATEMENT**

I hereby certify that the Precipitated Calcium Carbonate (PCC) products sold under the trade names Calofort S, SM, SV, Sturcal F, Sturcal L, Sturcal M, Calopake F, Calopake Extra Light, Calopake 5970, Calofort U, Multifex MM and DiCOM L100 produced by Specialty Minerals at their Lifford Lane, Kings Norton, Birmingham, England plant comply with the following:

- The above products have an indefinite shelf life when stored at ambient temperature, in dry, well ventilated, storage conditions. However, based on stability data we would recommend that material be re-tested every 5 years to assure the user that it still meets their application requirements.
- The date of manufacture is printed on every sack of product and the retest date is taken as five years (60 month's) from the date of manufacture. The retest due date is printed on the Certificate of Analysis.

Should you require further information on the status of our products then please do not hesitate to contact the undersigned on +44 121 252 4520 or email at [zoe.shackleton@mineralstech.com](mailto:zoe.shackleton@mineralstech.com)

Yours sincerely

Zoë Shackleton  
Quality Manager
