VICRON® FOOD GRADE

FCC Fine Ground Calcium Carbonate

Product Description

The VICRON® series of fine ground limestone products is certified for use in food applications. VICRON limestone products are characterized by their controlled particle size, high brightness, and chemical purity, complying with all ground limestone requirements of the current edition of the Food Chemicals Codex. The VICRON products are Kosher and Halal certified, gluten free, organic, natural, and vegan. The five grades are produced in our Adams, MA facility and range in particle sizes from 3.5 microns up to 17 microns.

Typical applications include; calcium fortification for bread, flour, cereal, breakfast bars, pet food and powdered beverages. Can also be used as a gum base masticating agent, process aid, toothpaste abrasive, material handling aid, texturizer and release agent in foods and confections.

The Specialty Minerals plant in Adams, MA is registered with the US FDA as a Drug Establishment. The registration number for the plant is 1214544.
